Dear Mr. Nygard and Mr. Pierre:

This letter submits a revised original of the subject document. Please complete, in turn, your agency’s “PM Decision Statement” and your portion of the “Determination” page.

The document has been revised to resolve comments from your agencies requesting improved characterization of the source term.

The document recommends:

- (2) No Further Action regarding the diesel fuel, and
- (3) Continued monitoring of the PW-13 well during the semiannual groundwater events.

Upon satisfactory completion of the “PM Decision Statement “ and “Determination” pages, three copies of the approved original will be provided to your agency.
