SUBJECT: TRANSMITTAL OF THE REVISED WASTE AREA GROUP 5 INSTITUTIONAL CONTROLS STATUS REPORT (EM-ER-02-199)

Dear Mr. Pierre & Mr. Nygard:

This letter transmits copies of the revised *Institutional Controls Status Report for the Power Burst Facility and Auxiliary Reactor Area, Operable Unit 5-12, for the Year 2002* (DOE/ID-11018). This revision incorporates resolutions to comments received from the Agencies.

The institutional controls status report summarizes the current condition of controls implemented at the Waste Area Group (WAG) 5 CERCLA sites. In addition, the report also documents the status and disposition of wastes generated during the Operable Unit 5-12 remedial action, including those wastes currently in compliant storage at the Idaho National Engineering and Environmental Laboratory. The major change to the document consists of the addition of Appendix C that incorporates the Institutional Control Field Inspection Checklist for each of the WAG 5 sites under institutional control.

If you have any questions or need further information please contact me at 208-526-4049.

Sincerely,

A handwritten signature in cursive script that reads "Carol A. Hathaway".
